a/ Type of service offered: 1 - physicians'; 2 - surgeons'; 3 - hospital; 4 - drug; 5 - dental

b/ Two medical care units and four dental care units in Georgia have not yet reported membership totals. The membership totals shown are, therefore, to this extent incomplete.

c/ For units shown under the various state headings to have reported physicians' charges. These units total 341 and cover 413 counties in 29 states with a membership of 50,669 families, 272,266 persons, or 70 percent of the total reported membership.

- d/ For units shown under the various state headings to have reported expenditures for drugs in April. There were 134 such units in 164 counties with a membership of 25,108 families, 136,783 persons. These units reported approved charges for physicians' service and drugs totaling \$34,890.58. The charges for drugs, \$11,308.55, are 15.3 percent of this total.
- e/ These figures represent the approved charges and percent paid for the indicated dental units for the month of April. The total of \$1,745.75 represents approved charges for the 31 dental care units reporting for April.
- f/ Average for first six months of 1940.
- g/ Figures taken from reports for months other than April.

a/ Type of service offered: 1 - physicians'; 2 - surgeons'; 3 - hospital; 4 - drug; 5 - dental.

b/ Two medical care units in West Virginia and one medical care unit and five dental care units in Georgia have not yet reported membership totals. The membership totals shown are, therefore, to this extent incomplete.

c/ For units shown under the various state headings to have reported physicians' charges. These units total 367 and cover 422 counties in 28 states with a membership of 54,438 families, 291,144 persons or 74 percent of the total reported membership in units offering physicians' service on a fee-for-service basis.

d/ This figure represents the amount paid rather than the approved charges for units paying for service on the basis of the number of families for which the physician, hospital, druggist or dentist has accepted responsibility for professional services. Percentage payment shown for these units represents the ratio which payments made bear to estimates of charges for reported services at usual rates.

e/ For units shown under the various state headings to have reported expenditures for hospital services. There were 231 reporting units in 271 counties which included hospitalization among the services offered. These units had a membership of 40,447 families, 217,669 persons. Their approved charges for physicians' and hospital services totaled \$91,410.36. The charges for hospital service, \$13,483.65, were 14.8 percent of this total.

- f/ These figures represent the approved charges, percent paid and number of persons served for the indicated dental units. The total of \$2205.65 represents approved charges for 34 dental care units reporting for May. This total does not include the dental service of units offering dental service along with physicians' service.
- g/ Figures showing membership taken from reports for months other than May.

a/ Type of service offered: 1 - physicians'; 2 - surgeons'; 3 - hospital; 4 - drug; 5 - dental.

b/ One medical care unit in North Carolina, one in Virginia, one in West Virginia, and one medical care unit and six dental care units in Georgia have not yet reported membership totals. The membership totals are therefore to this extent incomplete.

c/ For units shown under the various state headings to have reported physicians' charges. These units total 361 and cover 438 counties in 29 states with a membership of 47,366 families, 273,342 persons or 71 percent of the total reported membership in units offering physicians' service on a fee-for-service basis.

d/ This figure represents the amount paid rather than the approved charges for units paying for service on the basis of the number of families for which the physician, hospital, druggist or dentist has accepted responsibility for professional services. Percentage payment shown for these units represents the ratio which payments made bear to estimates of charges for reported services at usual rates.

e/ For units shown under the various state headings to have reported expenditures for hospital services. There were

237 reporting units in 285 counties which included hospitalization among the services offered. These units had a membership of 38,711 families, 208,017 persons. Their approved charges for physicians' and hospital services totaled \$113,143.64. The charges for hospital services, \$16,351.44, were 14.5 percent of this total.

f/ These figures represent the approved charges, percent paid and number of persons served for the indicated dental care units. The total of \$1855.81 represents approved charges for 39 dental care units reporting for June. This total covers the service of units offering dental service only but does not include the dental care provided by units offering this service along with physicians' service.

g/ Figures showing membership are taken from reports for months other than June.
